1. MINUTES

The minutes of the last AGM was noted as a correct record of the proceedings and passed by Tang Chee Kwan and seconded by Loo Chee Keong.

1. ADDRESS BY THE PRESIDENT

The outgoing President, Chow Hock Lee, welcomed all members present and thanked them for taking the time to attend the AGM. The meeting was called to order at 1500hr.

With 25 voting members present and since one-half of the voting members or twice the number of committee members whichever is less present constitute a quorum, the President declared there was sufficient quorum for the meeting to proceed.

The President further reiterated the importance of membership recruitment and to have a balanced approach to support all parties who in return support the growth of the society. An outline of the direction of the society was also proposed; amongst them the setting up of SFTPMS own website and also the emphasis of more and regular modelling clinics and workshop to benefit the members. Expressions of gratitude was also extended to all who made the past year activities a success. Special mention went out to members and sponsors.

5. SOCIETY PROFILE

The Selangor and Federal Territory Plastic Modelling Society or SFTPMS is a non-profit organization whose primary objective is to inculcate, promote and advance the fascinating hobby of Scale Modelling, the accurate representation of real life as well as futuristic innovations in miniature.

SFTPMS was officially registered on March 22th, 2006 with the Malaysian Registrar of Societies in line with the Societies Act of 1966 with membership open to all Malaysian citizens of 18 years and above. However, in reality there are no actual age restrictions as the younger generation is encouraged to join this absorbing, rewarding and educational hobby with the provision that they submit a written consent from their guardians.

Despite the Society's infancy, it has successfully organized several nation wide modelling competitions, promotional road shows and technical workshops/clinics thanks to the tireless, purely voluntary effort of its members as well as the generosity of local hobby stores. However, the Society is by no means alone in that Scale Modelling enjoys a much larger, world wide following and is one hobby that truly transcends borders, nationalities and cultures. All modelers irrespective of the race, culture or social standing share a common bond and that is a passion for scale modelling.

For additional information and interesting insights into the Society and its various activities do visit the Society's forum which is open to all or get in touch with the Committee members at the email address given below:
